THE AFRICA SPECIALISTS

WEST COAST

A CAPE TOWN DAY TOUR

The beautiful West Coast of South Africa is known for its quaint seaside towns and spectacular spring flower displays. Among the birding community it is a haven for birds of the strandveld as well as one of the best areas to find large numbers of migratory waders. This tour will explore the rich habitat of the West Coast National Park as well as some inland farms to seek out a wide variety of bird species. These include the endangered and endemic Black Harrier, the unobtrusive Southern Black Korhaan and a chance to see our National Bird - the Blue Crane.

Join us on this popular tour from Cape Town!
